Which suit does a bank-recovery case become?

कोणत्या केसला कोणता मार्ग — दाव्याच्या रकमेनुसार निर्णय

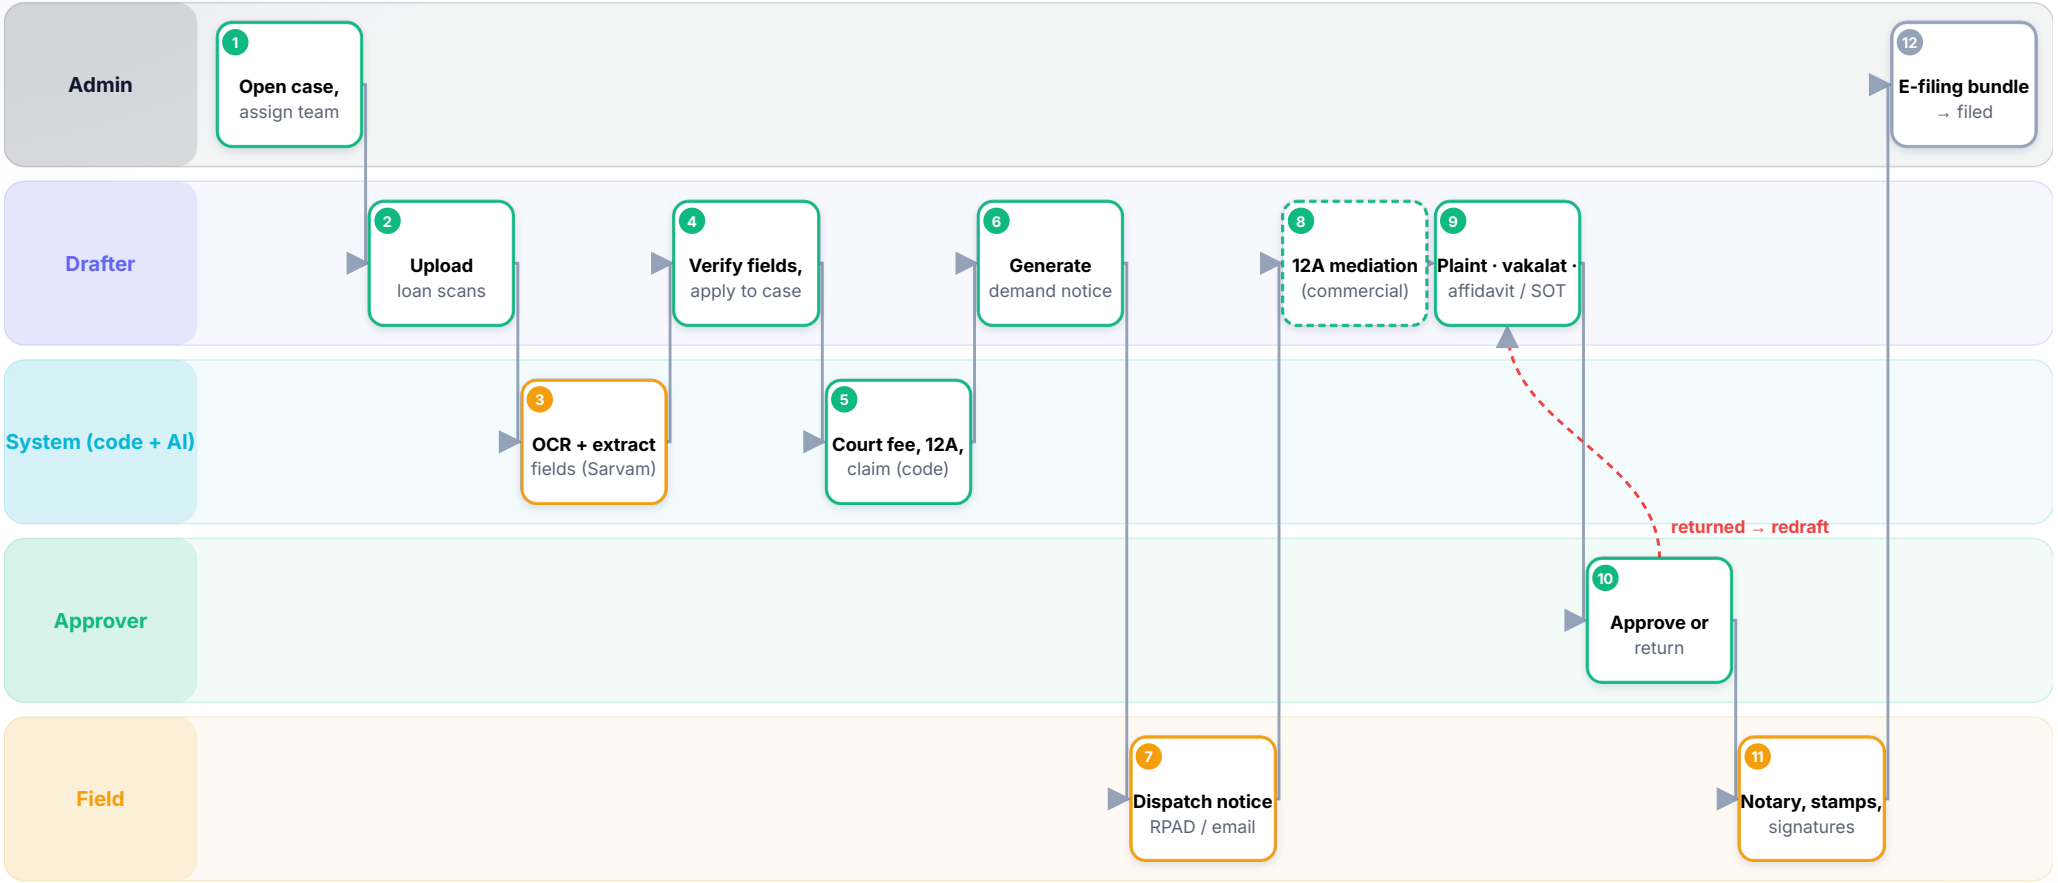

The app makes the ₹3 lakh and 12A determination automatically from the verified claim (**commercialCheck**, tested). Whether a summary suit is used — including summary procedure in commercial courts — is the advocate's decision and is marked for legal review. ₹20 lakh threshold and DRT routing per the project plan (B2).

Statutory references summarised for orientation; confirm with the advocate before reliance.

Who does what — the common journey of every case

प्रत्येक केसचा सामायिक प्रवास — कोणाची कोणती जबाबदारी

● Built in the app ● Partly built ● Planned

Rules enforced by the database, not just the screen: the approver can never be the drafter (or anyone who edited the draft) · only an admin assigns or re-assigns a case · a commercial case needing 12A cannot skip mediation · every change is written to a hash-chained audit log.

Field role records notary / e-filing tasks; notice dispatch is recorded by the drafter today.

Five case types, step by step
